Yes	27.9	n/a	n/a	n/a	29	29	29
No*	72.1	32	30	30	25	28	27

\*Changed by  $\geq 5$  percentage points over the study period. Due to high sampling variability, estimates denoted with <sup>E</sup> should be interpreted with caution as the respective coefficient of variation is between 16.6% and 33.3%. Estimates with a coefficient of variation above 33.3% (F) are not reported as they may be unreliable and do not meet Statistics Canada's quality standards.
